

## Body Massages:

### ❖ *Yam-dermoelastication: 40 min.*

*A treatment specifically designed for mums-to-be and new mothers. Precious blends of natural active ingredients and Argan oil fortify the skin tissue and help preserve a toned and bright complexion. It regenerates the skin tissue by making it elastic and full of vital energy, while preventing and reducing stretch marks.*

### ❖ *5 Salts: 60min.*

*Leg relief treatment. A blend of 5 draining salts (magnesium chloride, calcium, potassium, magnesium sulphate and sodium bromide) in pure form and carefully selected for their re-mineralising and detoxifying properties. These salts favour drainage of excess fluid, stimulate skin and lymphatic microcirculation, counteracting the subcutaneous accumulation of water and toxins.*

### ❖ *Cellu-trap: 40 min. (Easy)*

*Body treatment to eliminate cellulite; stimulates the drainage of liquids and toxins and attacks cellulite cells by visibly reducing orange-peel skin. The Easy treatment consists of hand-assisted combinations of acids that allow better absorption of the active ingredients of the "Sea Limo", which favours microcirculation and the elimination of excess toxins.*

### ❖ *Cellu-trap: 50 min. (Medium)*

The Easy treatment consists of hand-assisted combinations of acids that allow better absorption of the active ingredients of the "Sea Limo", which favours microcirculation and the elimination of excess toxins. The treatment is completed by the application of a modelling and draining thermoforming bandage for*

*results that are immediately visible through a silhouette that is more harmonious and sculpted.*

❖ **Cellu-trap:** 70 min. (Intensive)

*Body treatment for cellulite-free blemishes; stimulates the drainage of liquids and toxins and attacks cellulite modules by visibly reducing orange-peel skin complexions. The Easy treatment consists of hand-assisted combinations of acids that allow better absorption of the active ingredients of the "Sea Limo", which favours microcirculation and the elimination of excess toxins. The treatment is completed by the application of a modelling and draining thermoforming bandage for results that are immediately visible through a silhouette that is more harmonious and sculpted. This (intensive) treatment is personalised based on the type of cellulite (adipose, oedematous, fibro-sclerotic).*

❖ **Slimming treatments:** 40 min. (Easy)

*Slimming body treatments. This treatment is rich in active ingredients and slimming massage fluid that reshapes the body's profile.*

❖ **Slimming treatments:** 50 min. (Medium)

*Slimming body treatments. This treatment is rich in active ingredients and slimming massage fluid that reshapes the body's profile. The treatment is completed by the application of a modelling and draining thermoforming bandage for results that are immediately visible through a silhouette that is more harmonious and sculpted.*

❖ **Slimming treatments:** 70 min. (Intensive)

*Slimming body treatments. This treatment is rich in active ingredients and slimming massage fluid that reshapes the body's profile. The treatment is completed by the application of a modelling and draining thermoforming bandage for results that are immediately visible through a silhouette that is more harmonious and sculpted. A wrap is applied to the critical areas and thanks to its stimulating substances,*

*it facilitates the circulation of the active substances and the toning of the skin.*

❖ ***Lam-dermotonic Firming Massage: 60 min.***

*Firming body treatments; extremely relaxing thanks to the application of Aroma-Essences to the lymph nodes. Bandages soaked in tangerine vinegar with firming power are subsequently applied and rubbed with a mitt. The treatment ends with a firming massage using pure oil for immediate results.*

❖ ***Relaxing and decontracting massage: 40 min.***

*A massage that acts on superficial nerve endings for the release of endorphins. It is based on touch control providing well being, relaxation and induced drainage.*

❖ ***Organic Essential Oils Massage: 45min.***

*Intensive, body-shaping, slimming and firming treatment. The oils are formulated with vegetable oils, organic, hypoallergenic and paraben-free, backed by natural cosmetics made with the highest quality formulas rich in essential oils and certified organic plant extracts.*

❖ ***Organic Essential Oils Massage with BIOKALCO: 120 min.***

*Intensive, body-shaping, slimming and firming treatment. The oils are formulated with vegetable oils, organic, hypoallergenic and paraben-free, backed by natural cosmetics made with the highest quality formulas rich in essential oils and certified organic plant extracts.*

*BioKalco is an inorganic compound of silica powders and mineral salts that, mixed with water, starts a series of chemical reactions characterised by the production of alternate thermal energy. The occlusion that BioKalco produces on the skin permits the stimulation of microcirculation and skin oxygenation, resulting in increased absorption and penetration of the active ingredients present in the products previously applied and has a modelling, lifting and anti-cellulite action.*

❖ **Couples Massage:** 60 min.

*No matter the length of a relationship or its age, every couple needs to spend some exclusive time in complete relaxation and harmony. This is a relaxing massage characterised by slow and enveloping manual work for total abandonment. A sensual experience, able to restore vitality and harmony to any couple.*

❖ **Hydro-nutritional moisturising body treatment with honey and royal jelly:** 60min. Hydrating and nourishing body treatment with honey-based products, royal jelly, rice bran oil and Abyssinian oil. The skin will be regenerated, compact, light and soft.

❖ **Arms Lifting Treatment:** 30 min.

*Based on elasticising and firming products with manual handling for firming and eliminating fat accumulation.*

## *Facials:*

❖ **Deep Cleansing Facial:** 60min.

*Classic treatment to maintain correct skin function and prepare the skin for aesthetic and/or medical aids to prevent or mitigate the most common blemishes. Removes impurities, dead cells and black heads from the skin.*

❖ **Oxygenising:** 60min.

*Cell revitalising facial treatment providing oxygen and vitality to facial skin, stimulating local microcirculation by promoting oxygenation of the tissues, thus expelling toxins. It brightens, revitalises and oxygenates the skin. Suitable for exposed skins, stressed by environmental pollution or an unbalanced lifestyle.*

❖ **Drop of dandelion and orange blossom of biological origin:** 60min.

*Treatment that restores glow and strength to the skin. Dandelion is a*

*fresh juice obtained from the pressing of its organic flowers that freshens up the skin, protecting it from external agents, free radicals and slowing down the skin aging process. Orange flower blossoms also perform a relaxing and aromatic action by detoxifying and purifying.*

❖ ***V-lifting strategy: 70 min.***

*Face-lifting strategy, remodelling the face oval. Inspired by an Oriental technique, this treatment allows an effective facial lifting effect, decongesting the skin and promoting the removal of excess fluid while stimulating oxygenation for a lively looking face and moulded contours. Suitable for skins that have slowed down cellular activity thus yielding support structures (made of collagen, elastin and hyaluronic acid) leading to having more heavily stretched facial traits and less defined contours.*

❖ ***Poison of youth: 70 min.***

*Anti-wrinkle intensive treatment that "kills" the signs of time by minimising the visibility of wrinkles, even the deepest ones and expression lines, all thanks to "Conus" seashell poison, which was recreated in laboratories and deprived of its deadly paralysing action, revealing an extraordinary, immediate, relaxing and smoothing ability on the skin.*

## *Hands and Toes:*

❖ ***Manicure***

❖ ***Pedicure***

❖ ***Gel Polish Hands***

❖ ***Gel Polish Toes***

- ❖ *Happy Feet Treatment: Exfoliating and smoothing wrap that delivers deep nourishment and intense regeneration to the tissues for an instantaneous smoothing effect. A protective and moisturising barrier is created on the skin, essential to prevent water leakage and to counteract dryness and cracking. This treatment gives relief and relieves any itching.*
